Aimee Friedman's SEA CHANGE is the quintessential summer beach read that features a big mystery and a dash of romance. I have mixed feelings regarding Miranda, the main character. At times, I found her actions to be inconsistent and unwarranted, but, then again, she is only 16 and there's a lot going on in her life. The fact that Miranda has a scientific mind was a breath of fresh air. I love ...

Sixteen-year-old Miranda Merchant is great at science . . . and not so great with boys. After major drama with her boyfriend and (now ex) best friend, she's happy to spend the summer on small, mysterious Selkie Island, helping her mother sort out her late grandmother's estate. There, Miranda finds new friends and an island with a mysterious, mystical history, presenting her with facts her logical, scientific mind can't make sense of. She also meets Leo, who challenges everything she thought she knew about boys, friendship . . . and reality.

When her estranged grandmother dies and leaves her mother the family home, Miranda travels to the Georgia island, where she discovers mysterious family secrets and another side to her logical, science-loving self.

Required reading has never been so hot. Once upon a time there was a Brooklyn hipster named Norah. Unlucky in love, and short on extracurriculars for her college apps, Norah decided to start a book group. She knew the perfect locale -- a local indie bookstore with a crush-worthy cutie manning the soy latte counter. When the first meeting arrives, Norah gets a page-turning surprise. The attendees may be bookish, but there are also a few hotties! Most noteworthy: sweet, literary James. He's like a modern Jane Austen hero.... Only, how to snag him? Ever the romantic heroine, Norah devises a secret plan. And if it works, Norah may just find her "Happily Ever After" love story. The End.

The truth lies beneath the surface... Sixteen-year-old Miranda Merchant is great at science... but not so great with boys. After a major drama with her boyfriend and ex-best friend, she's secretly relieved to spend the summer on small, mysterious Selkie Island, helping her mother sort out her late grandmother's estate. But when she steps off the ferry from New York City, she discovers an island rife with legend and lore, steeped in a past her logical mind can't make sense of. She doesn't expect to feel such a connection to this unusual and mystical place, so filled with languorous charm and strange history. And when she meets Leo, a strange local boy, he challenges everything she thought she knew about boys, friendship, reality... and love.

From bestselling author Aimee Friedman, an acclaimed story about sisters, lies, and laughter -- now in paperback! Katie and Michaela Wilder are New York City girls...and best friends. But everything changes when they move upstate to rural Fir Lake. Katie is horrified by their new surroundings: the too-friendly neighbors, the lack of a subway, the fact they live near actual cows. She's shocked when Michaela adapts to the country life effortlessly, dating a cute football player and attending homecoming with something resembling enjoyment. And most shocking of all? She's started keeping secrets from Katie.

Can she keep her cool after meeting a French guy who's too good to be true and too hard to resist? For HOLLY JACOBSON, being in love with her boyfriend, Tyler, is as natural as breathing. normal. For one thing, she still has to maintain a strict look-but-don't-touch policy with Ryan, her hot ex-boyfriend-turned-stepbrother. For another, she has to learn to control her vampire superpowers—which means more than a few dates with Lex, mind-reading professional vampire trainer and too-sexy-for-his-own-good bad boy. And as if that's not enough, she happens to be the key to her father's plans to take over the world . . . and he'll stop at nothing to get what he wants. All this and she's still got to plan the prom. Being a teenager is tough, but being a teenage vampire just flat out sucks!
